TheRockGroup: who we are

Driving sustainable business

TheRockGroup is an ambitious boutique agency driving the transition towards a sustainable economy and society. We believe that fair and sustainable business can and should accelerate this transition. Therefore, we work on solutions with innovators, companies, civil society, knowledge institutes and policy makers.

Working on the transition

We work on the sustainability transition at three different levels:

1. We work with existing well-placed players to transform businesses and value chains.
2. We work with innovators and disruptors: individuals and organizations that show it can be done differently.
3. We work with a new generation of professionals that we guide to enable them to take their role in the transition towards a sustainable economy & society.
