

We are looking for new projects!

Dutch Flower Foundation is actively seeking new projects via our colleagues that make a meaningful impact on the lives of children and vulnerable groups in society. Over the past months, we have been dedicated to supporting a diverse range of initiatives, making a difference in communities worldwide. Here are some highlights of what we've accomplished from January to mid-September:

- **Distributed 3.516 reusable menstrual pads**, promoting sustainable and hygienic practices among women and girls in Kenya and Ethiopia.
- **Facilitated the education of 20 children** via Herburg, with ambitious plans to increase this number to 40 in 2024 and 60 in 2025.
- **Contributed €22.000 towards earthquake relief efforts** in Turkey/Syria, helping affected communities rebuild and recover.
- **Supplied 30 computers** to Sher Ethiopia School, providing students with valuable tools for learning and skill development.
- Extended educational opportunities by **providing 1.000 geometry sets, 334 learners' lockers, and 10.000 pencils** to Mirera Primary School, situated near Nini.
- We **donated 241 study books** to the library near Penta.
- Enhanced access to clean water by **installing 50 water tanks** at Tambuzi, ensuring that communities have a reliable source of safe drinking water.

Do you have a project in mind that could benefit from our support? Are you involved in charity work, planning a marathon for a charitable cause, training for the challenging climb of Alpe d'HuZes, or dedicating your free time to assist at a local food bank? We are interested in hearing from you!

Moreover, if you are connected with farms or organizations already working with us, and you believe they have a fantastic project that aligns with our mission, please don't hesitate to refer them to us.

Reach out to us at dff@dutchflowerfoundation.com to discuss how we can collaborate to make a difference together.

Making life colourful from the heart!
